MEDICAL MATERIEL

1999 Outstanding Medical Logistics Activity and Special Team of the Year

The 1999 Outstanding Medical Logistics Activity and Special Team of the Year “nomination call” was released on 01 Oct 99. This year’s scoring criteria will be based on the 1999 Malcolm Baldrige Award Criteria. The general guidelines of AFI 36-2856, *Medical Service Awards*, will also apply. Activity and Special Team award criteria can be found in **Attachment 1**.

For the **Medical Logistics Activity Award**, length of the narrative is limited to seven pages (1 page per category, in the sequence provided), in Times New Roman, 12 pitch, with one inch margins all around. The entire narrative along with all supporting attachments must fit into a single 1-½ inch 3-ring binder. Do not submit audio or videotapes.

Make sure to back up your statements with facts and information. Scoring is based on the narrative covering the seven categories. Attachments are used to support the information provided in the narrative.

For the **Special Team Award**, length of the narrative is limited to two pages, in Times New Roman, 12 pitch, with one inch margins all around and must also fit into a single 1 ½ inch 3-ring binder. Ensure that each category is addressed separately in the sequence provided. Again, use of attachments is encouraged to show supporting metrics, and any results oriented data.

As a reminder, all nomination packages must be submitted through applicable MAJCOMs and arrive at HQ AFMSA/SGSL by COB 01 December 1999.

Good Luck and if you have any questions, contact Ray Flores at DSN 240-3946, commercial 210-536-3946, FAX ext. 2984, or send an e-mail to ray.flores@usafsg.brooks.af.mil. (HQ AFMSA/SGSL, Mr. Ray Flores, DSN 240-3946)

Results of Y2K End-to-End Testing on Medical Logistics Computers, Interfaces and Ordering Systems

Many questions have been raised about the Y2K status of Medical Logistics computers and ordering systems. The following is a brief update on Y2K compliance and information, and the web site to obtain updates. The DMLSS web site for updates is <http://www.tricare.osd.mil/dmlss/default.htm>. Once at the web site, click on the Y2K link to view/print items. Since ordering medical supplies is a critical process, please file all Medical Logistics Systems Y2K documentation with your facility's Risk Management Plan for rapid reference. The MEDLOG computer system was certified as compliant in December 1998.

The DMLSS Program Management Office (PMO) recently completed end-to-end testing with all medical Prime Vendors (PVs). As a result, all Medical Logistics Systems and interfaces, and PV ordering systems and interfaces are Y2K compliant. Testing included both the DMLSS DOS PVI and new DMLSS platforms and all interfaces. The testing dates are: Baseline date (1 Jul 1999); 30 Sep 1999; 1 Oct 1999; 31 Dec 1999; 1 Jan 2000; 28 Feb 2000, 29 Feb 2000; 31 Dec 2000 and 1 Jan 2001. The testing was completed on 22 September 1999. You can review the completed report at the AFMS Y2K Information Center at web site:

<http://www.medicine.army.mil/afmlo/CE/Y2K/Y2k.htm>

DMLSS provided workstations have been tested for Y2K compliance. All workstations are compliant with some requiring manual intervention. Please review the DMLSS web site for specific details.

DSCP does have Y2K compliance letters for all PVs. Additionally, all PVs are finalizing contingency plans. All activities should work with

their PVs to ensure preparation, test, and documentation of contingency plans for manual ordering of medical materiel should automated systems fail or be otherwise impacted by Y2K.

If additional information is needed about the end-to-end testing, contact Mr. John Hallahan at (703) 575-2391 or e-mail him at john.hallahan@tma.osd.mil. For additional information about DSCP PV Y2K compliance letters, contact Mr. Steve McManus at DSN 444-2801. Questions about DMLSS can be directed to Mr. Bobby Cole at DSN 343-7818. If you experience problems with updates or conversions, contact the TMMSC help desk at (301) 619-2049. The AFMLO POC is Capt Troy Molnar. (AFMLO-FOM-E, Capt Troy Molnar, DSN 343-4083)

Readiness Information Systems

Computers and accessories will begin appearing on WRM Allowance Standards. Do not purchase these generic local purchase stock-numbers. These items will be centrally purchased through the Air Force Theater Medical Information Program (TMIP). The Air Force TMIP Project Officer reviews the requirements for future budgeting and acquisition as the requirements are identified by a Manpower and Equipment Force Package (MEFPAK). When you establish a MEDLOG master record for these items insure the Function Identifier is "C", the Procurement Source and Management Code is "A0" and the Routing Identifier is "BSO". You will establish the WRM levels just like you would for any other centrally purchased WRM asset. We provide each base information concerning delivery of the computers and accessories when we receive more information from the TMIP Project Officer. This ensures we are purchasing readiness information systems that are interoperable. (AFMLO/FOC-O, Mr. David Via, DSN 343-4028)

Allowance Standard (AS) Updates

Attachment 4 reflects updates to a number of medical Allowance Standards. Some changes were a result of cataloging action to replace Acquisition Advice Code 'V' and 'Y' NSNs, while the Offices of Primary Responsibility (OPR) generated other changes. These changes are provided to update your WRM and Medical Equipment Management Office records. Remember to establish prime-substitutes where applicable. (AFMLO/FOC-O, Ms. Anne Newcomer, DSN 343-4118)

Radiation Certification Permits

Did you know that Chemical Agent Monitors and a few other items require a permit? Yes, in order to receive any of the following items, each Air Force account must obtain a permit from the Radiation Protection Division (RPD) of the Air Force Medical Operations Agency. The permit provides the host account with certification to acquire and maintain these items, and is non-transferable.

6665-01-199-4153 Chemical Agent Monitor
6665-01-105-5623 Alarm Chemical Agent
6665-01-081-8140 Chemical Agent Detector Unit
6665-01-438-6963 Chemical Agent Automatic Alarm

Each base with a WRM project having one or more of these items must have an AF Radioactive Materials Permit on file with the Air Logistics Center, before they can receive the item.

To obtain the permit, the Bioenvironmental Engineering (BEE) department must submit a Letter of Request to the Radiation Protection Division (RPD) of the Air Force Medical Operations

Agency, located at Bolling Air Force Base. The RPD is located at 110 Luke Ave., Room 405, Bolling AFB, DC 20332-7050. Notification is also provided to the MAJCOM BEE representative, for coordination. The request must include the reason for the request, item, quantity, organization, phone number, and point of contact.

Upon receipt of your request, the RPD will provide the point of contact with a letter stating the conditions of the permit. Conditions generally include a requirement to inventory the item or items every six months, and perform a code leak test every twelve months. These conditions ensure the materiel is properly maintained, secure, and that a Safety Officer is familiar with the equipment. Once the account has met the conditions and returned the signed letter, the RPD will issue the permit.

The RPD will also provide the Item Manager a copy of the permit. The RPD point of contact is Maj Swenson, Chief of the Radiation Protection. She can be reached at DSN 297-4313 or commercial 202-767-4313. According to Maj Swenson, it generally takes at least 30 days to obtain a permit, however, the timeframe can be reduced depending upon the circumstances.

It is imperative bases authorized the above mentioned items requiring permits check their records to see if the permit is on file. If you have any questions on this process, or want to verify your account requires a permit, please contact the AFMLO Centrally Managed Equipment office at DSN 343-7517 or e-mail us at CMCP_Equipment@ft-detrick.af.mil. (AFMLO/FOC-O, SSgt Waymond Hughes, Jr., DSN 343-6854)

The AFMLL is a specialized newsletter published by the Air Force Medical Logistics Office. The AFMLL is published monthly to provide medical logistics information to Air Force medical activities worldwide. Our mission is to ensure all Air Force medical treatment facilities receive the highest level of medical logistics support. In that regard, we solicit your articles for inclusion in the AFMLL to relay information for use by other activities. For additional information concerning this publication, call (301) 619-4182/DSN 343-4182 or write to the AIR FORCE MEDICAL LOGISTICS OFFICE/FOA, ATTN: Donna Poffinberger, 1423 SULTAN DRIVE, SUITE 200, FORT DETRICK, MARYLAND 21702-5006. Articles may be faxed to (301) 619-2557 or DSN 343-2557. E-mail article to: donna.poffinberger@ft-detrick.af.mil

The use of a name of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

Matters requiring action after normal duty hours may be referred to the AFMLO Staff Duty Officer. The Staff Duty Officer may be reached at DSN 343-2400 or (301) 619-2400 between the hours of 1630 and 0700 weekdays, and anytime on weekends and holidays.

Obtaining Pallets and Nets for WRM Projects

463L System Support Equipment

The process for obtaining and reporting 463L Pallets and Nets has changed. Each base will report quarterly inventory figures to the War Reserve Materiel Officer/Noncommissioned Officer (WRMO/NCO) at the host base, instead of the AFMLO.

In accordance with AFI 25-101, dated 1 Oct 1997, tenant organizations will report WRM inventory figures to the WRMO/NCO. The host WRMO/NCO will consolidate the inventory figures and report them to the MAJCOM WRM Pallet and Net Monitor. The MAJCOM Pallet and Net Monitor will include these figures in the Quarterly Pallet & Netting Report (8701 Report) to the AF Item Manager.

Please ensure your inventory is properly reflected in MEDLOG.

Pallet and Net MAJCOM points of contact are listed below. If you have problems contacting someone on the list, please contact Ms. Rosemary Humphreys, the Item Manager for pallets and nets. Also, note that pallets and nets are in stock. Ms. Humphreys can be reached at DSN 468-6171, extension 217, or commercial 912-926-6171, extension 217. Please contact the AFMLO Centrally Managed Equipment office at DSN 343-7517 or email us at CMCP_Equipment@ft-detrick.af.mil. (AFMLO/FOC-O, SSgt Waymond Hughes, Jr., DSN 343-6854)

Available USAFE Excess

USAFE has over 5,900 items of excess supplies and equipment at FM 5628. These items will be available until 12 December 1999. Items available are advertised at the AFMLO excess web site:

<http://www.medicine.army.mil/afmlo/afmeds/usafe.htm>

You can download an excel spreadsheet containing all available items. You can also contact the owning base with e-mail links to each individual.

To claim items on this list contact the following individuals:

TSgt Michael D. Erickson
Phone: 011-39-0434-664224
Fax: 011-39-0434-667903

SSgt David B. Gasper
Phone: 011-39-0434-668912
Fax: 011-39-0434-668078

Maj Daniel F. Hines
Phone: 011-39-0434-668477

Please request items by Stock Number, and Quantity. This file will be updated weekly. If you have any questions, contact Mrs. Jackie Snoots. (AFMLO/FOM-P, Mrs. Jackie Snoots, DSN 343-4162)

Deoxyribonucleic Acid (DNA) Requirements for Active Duty Personnel

DoD Directive 5154-24, *Armed Forces Institute of Pathology (AFIP)*, 28 October 1996 requires all active duty military to provide a DNA reference specimen by 31 Dec 1998 and all Guard and Reserve personnel by 31 Dec 1999. In addition, all other personnel (including DOD and contract civilians) must provide a DNA reference specimen before deployment. Personnel failing to be tested are nondeployable. This information must be disseminated to the clinic personnel responsible for collecting DNA reference specimens.

To request DNA supply requirements, please complete the request form at **page 94 of Attachment 3**. After completing, fax to AFMLO/FOM-P, Charlotte Christian at DSN 343-6844, commercial (301) 619-6844. If you prefer, e-mail the information required on the form to Charlotte.Christian@ft-detrick.af.mil.

DNA supplies are centrally procured and will be issued at no charge. However, to ensure an audit trail, issues must be processed through MEDLOG. Use the following information to establish master records.

Stock Number: 6640DNATESTKIT
Function ID: D
PS&M: A0
Price: .01
Exp. Code: 1
Routing ID: BSO
Nomenclature: DNA TEST KIT

When supplies are received, you will be required to process an RND transaction. When processing the RND, use the 3750 block of document numbers with the following transaction information:

DET CD: A
INV Code: 0
Unit Price: .01
Refund CD: N

Issue the materiel using an NRI transaction as follows:

INV CD: 0
REFUND CD: N
DEMAND CD: R

The kits are processed as non-medical because it provides a way to free issue and account for kits without affecting the surcharge. **Note:** The demand code in the NRI is R and MEDLOG will maintain issue history on the kits. Remember to keep Unique Level Code (U) and do not assign a level.

If you have questions on current DNA policy or programs, please refer them to HQ AFMOA/SGOO, Lt Col Susan Northrup, DSN 297-4200 or commercial (202) 767-4200. Coordinate all requests for DNA supplies with AFMLO. (AFMLO/FOM-P, Mrs. Charlotte Christian, DSN 343-4164)

Current Status of Decentralized Blanket Purchase Agreements (DBPAs)

Pages 1 through 82 of **Attachment 3** contain the quarterly updated list of DBPAs. Pages 83 through 86 are the alphabetic cross-reference for the current DBPAs, while pages 87 through 90 provide a category reference. A Routing Identifier Code (RIC) is included at pages 91 through 93. The DBPA program now includes DBPAs negotiated by DSCP, the Veterans Affairs, National Acquisition Center, and the AFMLO VA Special Services.

New Agreements

The DBPAs listed below were negotiated by DSCP. Copies have been forwarded to the Defense Logistics Information Service (DLIS) for publication in the next Universal Data Repository (UDR).

<u>SP0200-00-A</u>	<u>Vendor</u>	<u>RIC</u>
8613	Medical Place, Inc.	LXX
8614	Health & Safety Plus	LIU
9056	Dispensers Optical Service Corp.	LDC
9125	Bristol-Myers Suibb	LEF
9232	J.F. Jelenko	LJF
9235	Pilling Weck	LPM
9238	G.D. Searle & Co.	LYY
9246	Matthews Medical Books	LMY

Agreement Modifications

Modifications listed below pertain to DSCP DBPAs. Copies were forwarded to DLIS for inclusion in the UDR.

(SP0200-00-A)		
<u>DLA120-00-A</u>	<u>Vendor Name</u>	<u>MOD to</u>
8516	Carbone Int'l (AASOS)	Change CAGE Code
8532	Bausch & Lomb Surgical	Change CAGE Code
9013	Eastman Kodak	Replace Attachment to DBPA and change the "remit to" address
9027	Con-Cise Contact Lens Co.	Extend DBPA
9029	S & S Worldwide, Inc.	Change CAGE Code
9057	GE Medical Systems	Change CAGE Code & address

9110	Brasseler USA, Inc.	Cancel DBPA
9141	Eastman Kodak	Replace Attachment to DBPA
9246	Matthews Medical	Change vendor name to Matthews Medical and Scientific Book, Inc.
9391	Kendall Healthcare Products	Change CAGE Code
9403	District Healthcare & Janitorial	Cancel DBPA

Modifications listed were issued by the Veterans Affairs, National Acquisition Center. Copies were forwarded to DLIS for publication in the next UDR.

<u>VA0200-00-A</u>	<u>Vendor Name</u>	<u>MOD to</u>
8501	Caligor/Roane-Parker Division	Cancel DBPA
9458	Acute Biomedical Supplies Inc.	Cancel DBPA

Worldwide Express (WWX)

Worldwide Express (WWX) is an express transportation option available for OCONUS DBPA purchases, credit card purchases, and Veteran's Affairs purchase shipments. Instead of medical shipments going directly to the CCP for air shipment by Medical Express (MEDEX), vendors can ship directly to the end user via WWX. WWX provides global express shipment of small packages up to 150 lbs. from CONUS to overseas, overseas to CONUS, and overseas to overseas. The approved WWX carriers are FedEx, DHL, and UPS. Currently, WWX is being used for DSCP Prime Vendor (PV) OCONUS medical orders and DBPA shipments up to 150 lbs. MEDEX is still in place at the prime vendor locations for shipments over 150 lbs.

DOD is a mandatory user of WWX for express shipments. However, before a vendor can send a shipment by WWX, the medical facility must have an account established with the WWX carrier; have authorized this mode of shipment; and have funds set-aside for premium transportation. The carriers will provide custom clearance and Intransit Visibility (ITV) on all shipments. This contract includes different levels of service, i.e. 2-day, 3-day etc. with rates reflective of the level of service desired. To obtain rate information, log on to the AMC web site at URL address: <http://public.scott.af.mil/hqamc/>. Go to the Rate

Calculator and find your origin and destination. Carriers will provide guaranteed delivery by business day based on destination.

To establish an account number, the medical facility should contact the WWX carrier of their choice and obtain the service representative for that country, by going to the carrier website and selecting their country location. The carrier representative will establish a WWX customer account number. Shipment of hazardous materials is not covered under the basic service of WWX; however, if a carrier handles HAZMAT as part of their regular commercial practice, then the government is allowed to use that service as an accessorial charge.

Don't forget that a Transportation Control Number (TCN) must be included on all overseas shipments sent by WWX. No other special markings are required for WWX.

Another express transportation option for CONUS small packages (1-150 lbs.) is the GSA Domestic Small Package contract No. GS-23F-9656D awarded to FedEx. To sign up for a FedEx account, call (800) 645-9424. You must provide FedEx with a complete mailing and billing address, and the frequency of service (i.e. weekly, monthly, etc). Under this contract, FedEx will not accept the credit card.

<i>Table of approved WWX</i>

To obtain funding for premium transportation, Medical Logistics must arrange for reservation of operation and maintenance (O&M) funds through the facility Resource Management Office (RMO) prior to authorizing premium transportation on requisitions/orders. Funding may be via AF Form 616, on each individual order (AF Form 9), or an O & M credit card. Any order not funded prior to being placed is subject to ratification action. The DBPA instructs vendors to provide freight bill proof of delivery for premium transportation.

There are two primary methods to reserve funds - for the entire fiscal year or calendar quarter, or on an "as required" basis before each order is placed. In either case, reserving funds does not incur an obligation for Air Force to pay a vendor on the basis of anticipated orders, but merely makes funds available by setting them aside in the account records for subsequent obligations when orders are placed with DBPA vendors. By setting funds aside, they cannot be inadvertently spent on other O&M requirements of the Medical Treatment Facility (MTF). The following two methods are prescribed:

AF Form 616
Fund Cite Authorization (FCA)

Specific uses, restrictions, and procedures for the requesting activity, DAO and recipient are contained in AFR 177-101, Chapter 20. Process an AF Form 616 (original and two copies) through the Resource Management Office (RMO) to the Commercial Services section of DAO. State the amount requested, period of time (quarter or year), and the purpose for which the funds are reserved. Prepare one AF Form 616 for the transportation funds. The AF Form 616 must include a statement limiting the amount of each order (i.e., not to exceed \$1,000 per order). DAO certifies fund availability on the AF Form 616, and returns the signed original and one copy to the medical activity designated on the form. For additional funds, request an increase by processing another AF Form 616 through your RMO, using the original advice number and indicate the changes in the appropriate blanks on the form. All orders placed against these DBPAs must be in writing, and contain the fund cite and advice number from the AF Form 616. When an order is placed, enter the amount of the transportation requirement on the reverse of the AF

Form 616 for that specific agreement. The dollar amount of the order is entered in the "Obligation Amount" column. Reduce the "Available Balance" column by the same amount. Documents used to place orders must conform to criteria in FAR 13.303-5. Orders are usually placed using DD Form 1155, which is subsequently used as a receiving report and disbursement voucher. Thus the transportation expense must be listed as a separate item on the DD Form 1155 and the fund citation identified to that item. Send two copies of the ordering document to the Commercial Services Section of DAO as orders are written, or as directed by DAO. DAO uses the ordering document to record the obligation in the official accounting records.

AF Form 9
Purchase Request

Specific uses, restrictions, and procedures are provided in AFC 64-109. Process an AF Form 9 through your RMO to the Commercial Services Section of DAO for each anticipated transportation expense that applies to a DBPA. State the amount requested and the special purpose for which the funds are to be reserved. DAO certifies fund availability on the form & returns a copy to the medical activity that initiated the form. If, for any reason, you need additional copies for a specific order authorized by the AF Form 9, contact DAO prior to placing the order. Because the AF Form 9 is for a specific requirement, the amount requested should be the minimum transportation required for the anticipated order. In this case, there is no need for a "Not To Exceed" amount on the AF Form 9. The amount certified on the AF Form 9 is the "Not To Exceed" amount. An order placed against these DBPAs must be in writing and contain the fund cite and purchase request number on the AF Form 9. Documents used to place orders must conform to criteria provided in FAR 13.303-5. Orders are usually placed resulting in DD Form 1155, which is subsequently used as a receiving report and disbursement voucher. Send two copies of the ordering documents to the Commercial Services Section of DAO, as orders are written or as directed by DAO. DAO uses the ordering document to record the obligation in the official account records. When services are received and accepted, make sure you process a receiving report and send it to

DAO. All AF Form 9s must contain the name and telephone number of the individual responsible for documenting receipt of services or items ordered. The DAO must know who is responsible for preparing a receiving report after the services or items have been received. Please ensure this information is placed in the "Description" block of the form.

An O & M government credit card can also be used to pay for premium transportation. Medical Logistics will track monthly credit card transportation expenses and reconcile monthly. During reconciliation, the credit card billing statement must be reviewed and approved by the certifying official.

If you have questions about WWX, contact AFMLO/FOM-P, Charlotte Christian, DSN 343-4164, commercial (301) 619-4164 or contact the DSCP Agency Contracting Officer's Representatives (ACORs), Wanda Thomas, DSN 444-7395, commercial (215) 737-7395 or Anne Disciullo, DSN 444-2675, commercial (215) 737-2675.

Reminder - DBPA Call Numbers

Effective 1 Oct 99, the FY portion of the DBPA number for DSCP and VANAC DBPAs should be changed from 99 to 00. The DBPA numbers should read DLA120-00-A-XXXX, SP0200-00-A-XXXX or VA0200-00-A-XXXX. For DBPAs awarded by the AFMLO VASS contracting office, this number remains the same throughout the life of the agreement. In addition, the numbering of the first DBPA call issued after each fiscal year change will revert to 0001.

Y2K DBPA Mods

The modifications below are a cumulative list issued by DSCP to incorporate the Year 2000-warranty clause into the DBPA. Copies of these modifications were forwarded to DLIS for inclusion into the UDR.

DLA120-00-A- / SP0200-00-A-

Information

Medical Logistics in Action

Headquarters, Air Force Medical Support Agency (HQ AFMSA) and the Air Force Medical Logistics Office (AFMLO) extend sincere congratulations to the personnel named below for their outstanding achievements. (AFMLO/FOA, Ms. Rita Miller, DSN 343-4158)

Promotion to Staff Sergeant

CMSgt Gerald Benson, AF Career Field Manager 4A2X1, and CMSgt Rowland Harvey, AF Career Field Manager 4A1X1, congratulate the following individuals on their selection to Staff Sergeant. We would like to remind you that being promoted to SSgt means you have moved into the NCO ranks. You will be expected to perform complex technical duties in addition to providing responsible leadership. It is your responsibility to train and mentor all enlisted personnel under your supervision. Don't stop now, continue to broaden and perfect your professional expertise and supervisory techniques. We congratulate you again on behalf of Col Jim Moreland, Col Jeffrey Cooper, and the entire AFMSA and AFMLO staff.
